Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 21 January 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-10 is/are pending in the application.

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 6-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In regards to claim 6, it is unclear what is meant by “interposed” and “in response.”

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 and 5-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Hitomi (US 5,161,750).

Hitomi discloses a fishing reel comprising:

a reel body attachable to a fishing rod;

a spool 30 rotatably supported by the reel body;

a handle 5 disposed at a side portion of the reel body for rotating the spool to winding a fishing line on the spool; and

an auxiliary operating member 150,160 for auxiliary winding the fishing line on the spool provided at a position in which the auxiliary operating member can be operated by a finger of an angler's hand holding the fishing rod to which the reel body is attached, as seen in Figures 5-8.

In regards to claims 5 and 6, Hitomi discloses auxiliary operating member 150,160 is formed so that, when the handle 5 is rotated to rotate the spool, the auxiliary operating member is not rotated in response to the rotation of the handle 5 and where a one-way clutch 160 is interposed between a rotating member in response to the rotation of the handle 5 and the auxiliary operating member 170.

In regards to claims 2 and 7, Hitomi discloses the auxiliary operating 150,160 member is rotatably provided between left and right side plates 10' which constitute the reel body.

In regards to claims 3 and 8, Hitomi discloses the auxiliary operating member 150,160 includes a lever portion 170 to be operated by the finger.

Response to Arguments

Applicant's arguments filed 08 February 2005 have been fully considered but they are not persuasive.

The 112 2nd Paragraph rejection of claims 6-8 have been addressed.

In response to the Applicant's argument that Hitomi discloses controlling the auxiliary mechanism for controlling line in the unwinding direction and not the winding direction as claimed, the Examiner draws attention to page 11 lines 6-21 of the applicants disclosure. The Applicant describes the operating a handle portion 31 to engage and disengage the auxiliary operation member with the one-way clutch 25. When disengaged, the handle shaft is permitted

Art Unit: 3654

free rotation, when engaged, the movement of the handle shaft is transmitted through one-way clutch 25. The Hitomi patent operates in the same way, as explained in col. 5, lines 2-13 and illustrated in Figures 7 and 8. The operating a handle portion 170 is operated to engage and disengage the auxiliary operation member 150 with the one-way clutch 160. When disengaged (Fig. 9) the handle shaft 60 is permitted free rotation, when engaged (Fig. 8), the movement of the handle shaft is transmitted through one-way clutch 160.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
